THIS POSITION IS IN THE BARGAINING UNIT

QUALIFICATION REQUIREMENTS:

Eligibility: U.S. Office of Personnel Management Qualification Standards Handbook and VA Handbook 5005, Pt II, Appendix F7 for GS-185 series applies and may be reviewed in the Human Resources Management Service office.

Basic Requirements:

- **Education:** Have a master's degree in social work (MSW) from a school of social work fully accredited by the Council on Social Work Education (CSWE). Graduates of schools of social work that are in candidacy status do not meet this requirement until the school of social work is fully accredited. A doctoral degree in social work *may not* be substituted for the master's degree in social work.
- **Licensure:** Persons hired or reassigned to social worker positions in the GS-185 series in VHA must be licensed or certified by a state to independently practice social work at the master's degree level. Current state requirements may be found on the OHRM website.
- **Exception.** VHA may waive the licensure or certification requirement for persons who are otherwise qualified, pending completion of state prerequisites for licensure/certification examinations. This exception only applies up to the full performance level. For grade levels above the full performance level, the candidate must be licensed or certified. For grades below or at the full performance level, VHA social workers who are not licensed or certified at the time of appointment must become licensed or certified at the independent, master's level within 3 years of their appointment as a social worker. Most states require 2 years of post-MSW experience as a pre-requisite to taking the licensure/certification exam, and VHA gives social workers one additional year to pass the licensure/certification exam. It is VHA policy that a VHA social worker who does not yet have a license that allows independent practice must be supervised by a licensed independent practitioner of the same discipline who is a VA staff member and who has access to the electronic health record.
- **Failure to Obtain License or Certification.** In all cases, social workers must actively pursue meeting state prerequisites for licensure or certification starting from the date of their appointment. At the time of appointment, the

supervisor, Chief Social Work or Social Work Executive will provide the unlicensed/uncertified social worker with the written requirements for licensure or certification, including the time by which the license or certification must be obtained and the consequences for not becoming licensed or certified by the deadline. Failure to become licensed or certified within the proscribed amount of time will result in removal from the GS-185 social work series and **may** result in termination of employment.

- **Loss of Licensure or Certification.** Once licensed or certified, social workers must maintain a full, valid and unrestricted independent license or certification to remain qualified for employment. Loss of licensure or certification **will** result in removal from the GS-185 social work series and **may** result in termination of employment

Specialized Experience: GS-9: Must have completed Masters in Social Work. Specialized experience may include, but will not be limited to assisting in development of mental health treatment plan, providing goal planning, evaluation and intervention with serious and complicated cases. **GS-11** full performance level requires completion of a minimum of one (1) year of post-MSW degree experience in the field of health care social work (VA or non-VA experience) and licensure or certification in a state at the independent practice level. This specialized experience may include, but is not limited to, working with diverse cases involving substance abuse and psychiatric illness, working to develop crisis management plans for various types of crisis, and has knowledge and experience in providing at least one evidence-based therapy.

Substitution of Education for Experience: In addition to meeting basic requirements, a doctoral degree in social work from a school of social work may be substituted for the required one (1) year of professional social work in a clinical setting.
